

# PRESSRELEASE DECEMBER 2006

## BAG and HARNESS COLLECTION 2007

### STYLER 07

The Styler is a waist harness that satisfies the needs of demanding kitesurfers in every way. Maximum comfort and the Double Hook Attachment speak for themselves.

A continuous neoprene padding protects the kidney area and prevents riding up. Generous padding in the chest area and a wide cut add further comfort. The Full Protection Hook Mounting additionally protects the rider from rib injuries and bruises.

Reinforced leash attachment rings and a rear handle are other useful features. Available in two different color combinations: black/lime and black/grey.

### AIR-STYLER 07 / AIR-STYLER LTD 07

The Air-Styler has all the advantages of the Styler plus the Air Bubble back padding. The bubble can be inflated to the desired volume through a valve on the back. The shape of the Air Bubble has been further optimized this year and follows the waistline at the side. Perfect fit guaranteed!

### PERFORMER 07

The Performer permits a lower hook position. Neoprene padding, a freely adjustable back position that reduces the pressure in the lower back area, longer legs and a larger seat area make this harness a miracle of comfort. The NKB Wonder.Bar additionally facilitates getting in and out of the harness. Just perfect!

### SOFA SURFER 07

The SofaSurfer combines the advantages of the Air-Styler with those of the Performer. Its construction ensures optimum load distribution and the Air Bubble allows you to adapt the back padding to the shape of your back. Other useful features include a D-ring for the safety leash, a rear handle and the North Wonder.Bar.

#### North Kiteboarding WONDER.BAR

All NKB harnesses come with the North Wonder.Bar. Due to the closure at the harness hook the strap only needs to be adjusted once. The U-claw facilitates getting in and out of the harness and ensures optimum safety, even under extreme conditions.

## IMPACT VEST

For Waist Harness

For Seat Harness

The NBK Impact Vest provides optimum protection for progressive kites. Its elastic neoprene construction ensures a perfect fit while retaining sufficient range of motion, even for radical moves.

The Flexbelt closure permits individual adjustment and keeps the vest firmly in place.

The impact vest is available for both seat and waist harnesses. The waist harness version can be adjusted through a strap. Should it ride up, simply pull down the harness to bring the vest back in position.

### **DAYPACK 07**

The NKB Daypack is your perfect companion for both beach and office. A padded notebook compartment, a large main compartment on the inside and an exterior pocket provide plenty of space for all your stuff. The exterior pocket features a cell phone and pen holder and a fleeced-lined pocket for sunglasses. North tag prints ensure a stylish appearance of this daypack with a stowage capacity of 26l.

### **BARREL BAG 07**

Do you remember those old sports bags? The NKB Barrelbag brings back the good old days in superior quality, with a substantially higher style factor and an extra Wetbag for wet shorts, wetsuits, shoes or underwear!

### **TRAVELBAG LARGE 07**

With a stowage capacity of 115l and an optional extension of 20l, the Travelbag provides all the space you need for long trips. A shoe compartment on the outside and many exterior pockets make it easy to stow small items. Wheels and a telescopic handle help you to move those kilos around with ease and elegance.

Size: 90cm x 38cm x 34cm

### **TRAVELBAG SMALL 07**

Perfect for short trips! Despite of its generous capacity most airlines should allow this bag as hand luggage. The detachable backpack with various extra features permits fast and flexible response to changing situations. The bag comes with North tag print design and croc-skin finish.

### COMBIBAG 07

The optimum size for 2 kites and 1-2 kiteboards. A 4mm-thick padding protects your material and padded carrier straps permit using the Combibag either as a backpack or travel bag. With North tag prints, croc-skin finish and a dash of lime on the inside you're on the cutting edge of style.

### SINGLE BOARDBAG 07

A 4mm-thick padding reliably protects your kiteboard from dents and scratches. Fast, safe and comfortable to use, the Singleboardbag is just the right thing to carry your baby around. Available in three different lengths: 135cm, 148cm, 160cm.

### SINGLE SURFBOARDBAG 07

The perfect bag for your Rocketfish. A 3mm-thick padding protects your board and permits short transport on a roof rack. Carrier belts provide extra comfort when carrying the board. Size: 5'10

### KITETRANSPORTER 07

The Kitetransporter offers sufficient space for 2-4 inflated kites and an optional extension for larger kites. With its padded carrier belt, the Kitetransporter is made for carrying inflated canopies to the beach or to the next spot. A lateral bar pocket keeps the lines from getting tangled during transport.

### QUIVERBAG 07

The bestseller of our bag collection is ready for a new season. The Quiverbag holds up to 2 boards, 3-5 kites, bars, pumps, harnesses and wetsuits. Wheels with ball bearings help you to transport all that gear without excessive transpiration. To facilitate check-in procedures we avoided any "kiteboarding" print on the bag. A separate Wetbag keeps dry stuff dry.

Available in three sizes: S (135), L (165) x 45 x 40, and XL (185) – fits a Surfboard!
